

Dear captains, coaches, managers and other officials,

Food Orders

You can still order for the Asian/Oriental buffet on Friday. The dinner dance is **fully booked!** The availability is shown on our website, button Teams.

The HC Tilburg kitchen counter is not equipped to serve large numbers of tournament players at lunchtime. That's why we offered and advise you to use the possibility to order lunchboxes. Orders can be made until **April 15th**, the final deadline.

During the tournament we always have a swap market where meal tickets can be offered and sold.

Parking tickets

Several teams asked for parking tickets. There are no parking permission tickets required this year. Last year we had two Premier League matches during our tournament and consequently we had less availability. But we still advise you to travel together to the club because we have a limited availability with such a big tournament.

Alternative parking is always possible at the Campus of Tilburg University, Warandelaan.

From the campus it takes a 15 minutes warming-up walk along the Auberge to the pitches. You will find a map on our website www.isvt.eu

Game schedule live

Some may have noticed that the game schedule is live: <https://www.tournify.nl/live/2024isvt/schedule>.

What we think is practical that you go to: <https://www.tournify.nl/live/2024isvt/team>, select your team and mark it as FAVOURITE. You will then have the actual schedule for your team always at hand. For your travel schedules it is important to know that the final games will finish at 2.35 PM, the prize giving ceremony starts at 3.00 PM.

This year there are 7 categories under which the 49 teams are divided. All teams play a total of 7 matches. Depending on the number of teams per category, each team may play against each other once (with 8 teams). If there are fewer teams in a category, some teams will be playing once, and one or more teams will be playing twice.

The choice against whom one plays once or twice is made completely randomly. This can be beneficial or detrimental to ultimately winning a category (or not!). No comments will be accepted regarding the choice of which team will be played once or twice. As mentioned, it is a completely arbitrary choice that can be better or worse.
